VIETNAM

Did you know that a Boeing 747 could fly through the world's largest cave?

It's called Son Doong Cave, situated in Vietnam. It's the largest cave in the world by volume and a complicated and challenging cave to navigate, requiring expert know-how to do so. Much like the cave explorers, we also pride ourselves in our experience and tenacity when it comes to delivering your volumes of cargo safely and effectively out of Vietnam - regardless of conditions and difficulties.

What is your type of commodity? We handle garments, shoes, furniture, plastics bags, bicycles, frozen fish, seafood, and much more. No matter the nature of your business, we have the expertise, local knowledge and the international network needed to provide reliable logistics solutions throughout the cargo's journey from start to finish.

Our CFS Warehouses specialize in the consolidation and deconsolidation of cargoes, working day and night to manage your shipments. Conveniently situated in northern and southern Vietnam and close to the main highways, our locations provide an easy connection to nearby container ports, allowing us to seamlessly manage both import and export operations.

Service Coverage include:

- Freight Management
- Buyer Consolidation
- Warehouse and Customs Brokerage
- Trucking + Industrial Projects
- Air & Sea-Air via SIN/CMB/DXB
- Rail & Domestic Transport

With our ISO certifications within Quality, Environment, Occupational Health & Safety, your cargo is expertly handled to always meet the industry requirements.
